Museum of History and Art

**Photograph Reproduction Fees
For Personal Display in Home or Office
(Non-Commercial Use)**

Prints ordered from Coronado Historical Association are not printed in-house but rather by a professional custom photographic digital imaging lab. They use cutting edge technology to manufacture only the highest quality prints utilizing the following specifications:

Photo Satin RC Paper is a 10.3 mil, 260g/m² premium instant dry photographic quality inkjet paper that features unrivaled image quality. The bright white tint of the media has excellent versatility across a broad range of photo and display-graphics applications. This is our standard paper for high quality enlargements.

Super Heavyweight Plus Matte Paper delivers superior print quality including vibrant, full-color graphics and outstanding photorealistic images. The ultra white matte finish offers a rich, distinctive look and feel.

All of our prints are made using PIGMENTED INKS for unmatched archival longevity and fade resistance. Our HP Vivera ink and Premium Satin RC paper combination creates an image that is fade resistant for more than 250 years as compared to a LightJet image on silver-halide photo paper having a longevity of 40 years, at best. We are proud to offer such an incredible product to customers.

*Price is for two copies

SIZE	PRICE
5 X 7	\$30.00*
8 X 10	\$30.00
11 X 14	\$45.00
